CREATING FUTURE IITIANS AND DOCTORS**

## WHO WE ARE?

Arjunaa Academy for Achievers (AAA), is a leading and Google's Highest Rated Institute for IIT, NEET, Olympiads, NTSE and Foundation. AAA was started by Mr. Hareesh P. K., B.Tech (E&C) & M.Tech (VLSI) alumnus of NITK Surathkal with the vision of transforming the nation by transforming education & the students who are the future torch bearers.

## OUR MISSION

To provide cost-effective world class education in order to create professionally superior manpower and to instil within students deep foundational values of good character to bring out Principle-Centered Leaders in the society.

## OUR VISION

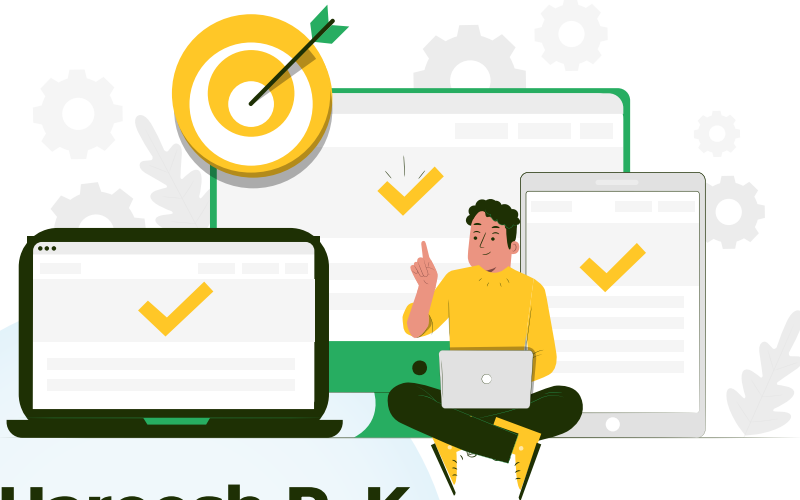

To become leaders in the field of education and create a brand of Principle Centered Teachers, Leaders and Entrepreneurs for creating a sustainable, self- sufficient community.

## OUR CORE VALUES

- Dedication to the success of our students which will cascade automatically on AAA and you as an individual.
- Creative/Innovative teaching methods and modules which differentiates us from rest of the world.
- Trust, Mutual Respect, Commitment and Personal Responsibility (Ownership) in everything we do.

## Hareesh P. K.

"Leadership is the capacity to translate vision into reality"

The word "Education" comes from the Latin word, 'educare', which means to bring out the divinity from within. Intellectual education influences the head and value-based education influences the heart. For a progressive society, we need both of these. Children of today are citizens of tomorrow. Teachers play a crucial role in bringing out the best in the children, both in terms of competence, character & thereby in the overall progress of the nation.

At AAA, we are committed to provide cost-effective world class education in order to create professionally superior manpower and to instil within students deep foundational values of good character to bring out Principle-Centred Leaders in the society. For us, education is a sacred service that one could render to the society and not a mere business.

A common challenge while teaching to set of variegated children is to satisfy the needs of all. If the concepts are taught at a basic level, the quick learners feel bored & if the concepts are taught at an advanced level, the slow learners feel very difficult to comprehend. In either of the cases, the children lose confidence & interest towards their academics & often get discouraged and perform way below their potential.

The unique teaching methodology at AAA caters to student at every level & helps to take them to the next level. AAA's customized training methodology includes additional doubt clarification sessions both online & offline, online video solutions for tricky problems of our material.

"Personal attention is the culture" at AAA. "Child's dream becomes our commitment". To facilitate young aspirants to shape and make their dream come true through high quality teaching, exemplary conduct, commitment, personal attention & care is how we define the success at AAA. Here, "We train students like professionals, care for them like parents."

You can be rest assured for a positive life changing experience at AAA as you meet some of the best living examples of extra ordinarily talented teachers with deep foundational principles of character and culture.

# TESTIMONIALS

**NAMAN KARANTH**

I was fortunate to have been guided by Arjunaa Academy for Achievers throughout my entrance exams preparation. Their knowledgeable and dedicated faculty inspired me to achieve my goals. With their innovative methods and detailed material I could excel in my examinations.

As their motto itself is "where personal attention is culture", teachers do provide individual attention to each and every student, clear students' doubts to making them conceptually strong. Teachers themselves are from NITs, IITs and other top colleges of India. They guide students well, push them to give their best. Even during the lock down (2020) tests and online classes were still going on, which shows their determination towards teaching. Overall, I would say it's the one of the best places for learning. With one's own hard work and determination, (s)he is bound to succeed.

**DHRUTHI BHAT**

**SPOORTHI C.P**

I would like to give a rating of 5/5 for Arjuna Academy for Achievers. It's a great Institute for JEE, NEET and other competitive exams. The best part of this institution is its cooperating teachers who inspire each and every student to do his/her best. I feel happy to be a part of this institution and I highly recommend students to join AAA for NEET and JEE coaching.

I am grateful to all the faculty of AAA who guided me very well for all my competitive exams. As said in their tagline 'where personal attention is the culture' they mean it and they teach every student and clear all our doubts very well. The way they make us understand concepts is extraordinary! I am really thankful to them

**SHAMANTH S BHAT**

**ASHWIN BIJU NAIR**

AAA is a great academy for competitive exam coaching. One thing that separates this institution from others is the personal attention each of us receive and the ease with which the students can learn. The teachers are well experienced and are always there to guide you, even if it's not related to academics. I am very grateful to be a part of AAA.

# TESTIMONIALS

**H. SATYAPRASAD**

Principal, Vijaya  
Vittala PU College

Arjunaa Academy for Achievers is one of the most committed coaching institutes that I have ever come across. The entire team is scholarly, with a unique blend of in-depth knowledge & extra-ordinary teaching skills. This enables the students to grasp tough concepts & learn problem solving skills very easily.

The teachers were available for 9 hours daily during the Dussehra vacation to assist students in problem solving. Whether working day or a holiday, small crowd or huge crowd, their enthusiasm & commitment remains the same. Be rest assured of success by enrolling at AAA as you meet one of Karnataka's best team of intellectuals & principle-centred teachers.

We choose to learn from the best. When it comes to learning we see the skill, humbleness, passion and teaching methodologies which are all part of AAA team. It gives me immense pleasure to be associated with them for our academic journey.

They did a great job and their coaching was extraordinary due to which our students are benefitted maximum and got very good ranking in NSTSE exam. We wish to continue our association with them in future also and we wish all the best for them.

I am grateful to all the faculty of AAA who guided me very well for all my competitive exams. As said in their tagline 'where personal attention is the culture' they mean it and they teach every student and clear all our doubts very well. The way they make us understand concepts is extraordinary! I am really thankful to them
